## COMPATIBILITY

With PS-IMS-F3, the following lens mounts can be attached to the Sony PMW-F3 camera:

- Professional F-Mount
- Nikon F Mount
- Canon EF Mount
- Canon FD Mount
- Leica R Mount
- Leica M Mount
- Panavision Mount
- BNCR Mount

The PS-IMS-F3 consists of an intermediate flange and various lens mounting rings allowing the use of virtually all professional 35mm lenses. All you need to do is to exchange the original PL mount with the PS-IMS-F3 intermediate flange. There's no need for any modification of the F3 or its FZ mount. The F3's back focus adjustment function allows easy installation and adjustment without any shimming.
